

## Yorkton Parks **TECH TIP**

**Shovel snow away from your home's foundation.**

Grab a shovel and start moving snow away from areas more prone to water damage. Since snow will eventually thaw and turn to water, you can prevent potential flooding and water damage by shoveling the snow away from your foundation. Remember you're doing physical work, so pay attention to over-exertion and make sure to stay hydrated.

## Winter Fun in Yorkton
