**Regular Aquacize:** Regular Aquacize gives the participant the option to work at a transitional depth, and gives excellent cardio, strength and flexibility training. Suitable for everyone. Regular Aquacize is in the Wave Pool and there is a zero-depth beach entry.

**Deep Aquacize:** This class occurs in deep water in the Lap Pool and is intended for strong swimmers. Focus on using the water's resistance for core, cardio and strength. Float belts provided. A stairway access is available to enter the pool.

**Aqua Cycle:** indoor cycling class that takes place in a pool. Participants use stationary bikes in 3-4 feet of water, and pedal against the resistance of the water. The water's buoyancy helps provide support to working muscles and joints, and can be beneficial to those with limited mobility or recovering from injury. Water Shoes are recommended for use with the bikes.

**Parent and Tot Aquacize:** Bring your little swimmer with you during your recreational fitness time. Dolphin floats allow you to keep your little one in arms reach and keep moving. Located in the wave pool with zero depth entry for easy access.

**Par-Q and you!** In order to provide a safe exercise environment we encourage all participants to read our Part-Q signage and assess your fitness to participate. If you are new to Aquacize at the Water Park talk to our staff to receive a copy.
