

Snow Removal Priority Map

www.yorkton.ca/snow

Plowing Priorities

1. Highways, main streets, and emergency routes
2. Collectors (Dracup Avenue, Morrison Drive, Darlington, Myrtle Avenue)
3. Residential Streets
4. Culs-de-sac and Bays

Snow Plowing on main city streets is not typically done unless 2 inches (5cm) of snow has accumulated with forecasts of more snowfall.

Please recognize that residential streets are low in priority and are NOT plowed unless there is more than 4 inches (10cm) of accumulated snowfall.

Cost of Snow Removal:

Each household pays approximately \$78.00/year for snow removal.

What you need to
know when it starts
to SNOW!

Snow Route Parking Ban

Regulations:

According to Bylaw No. 18/2016, no one is permitted to push snow from private property onto City owned property. A fine of \$30 in residential areas or \$300 in commercial or industrial areas may be issued for contravention.

Canada Post Mailboxes

The City of Yorkton's main objective will be to ensure that all roadways and sidewalks are kept clear. However, **it is Canada Post's responsibility to ensure all mailboxes are clear from snow.** For any inquiries with regards to mailboxes, please call:

1-(844)-454-3009

- * The Snow Route Parking Ban will be declared on designated streets, when necessary, to remove snow during heavy snowfalls in the most efficient, timely and effective manner to facilitate resident and commercial traffic.
- * Do not park on designated snow route streets during a snowstorm while snow clearing operations are underway. Parked cars make plowing difficult and do not allow for efficient and effective snow clearing.
- * There will be two key designated routes:
 1. **Red Route (highest priority).** When declared, no parking will be allowed on this route for three days following declaration or until snow is cleared.
 2. **Blue Route (secondary priority).** When declared, no parking will be allowed between 11 pm and 7 am for three days or until snow is cleared. Parking during the day/evening (7 am to 11 pm) will be allowed.

- * These snow routes will be clearly advertised on the city website Yorkton.ca, and in the City News section of Yorkton This Week.
- * City staff will attempt to give a minimum of five hours notice before the ban is put into effect. This will be done in the following manner:
 - A message on the city website home page
 - City Facebook page
 - Radio announcements (standard alert form information called in to GX, the Fox and The Rock)
- * When there is a heavy snowfall in the forecast, residents should be aware of the potential parking ban and ensure their vehicles are not parked on the Red or Blue designated routes.
- * Bylaw Enforcement Officers will issue a ticket for \$45 to any vehicle parked on a route that has a declared parking ban, and the vehicles will be towed if necessary.

Keep In Mind ...

- * While clearing snow from residential streets, **windrows left in private driveways** that are **taller than 12" (30 cm)** at the lowest point of the driveway after the snow removal equipment has passed, **will be removed by city crews. Windrows left in private driveways** that are **shorter than 12" (30 cm)** at the lowest point after the snow removal equipment has passed, **will be the responsibility of the home owner** regardless of the homeowner's age or physical condition.
- * **Streets usually take four to five passes to complete, so please be patient.**
- * **If your driveway has been completely missed, please call the snow hotline.**
- * **Concerns received will be followed up within 24 hours.**
- * **Road rights-of-way and public sidewalks (combined curb and sidewalk) will be used for snow storage.**
- * **Please allow 5-7 days for City crews to clear residential streets prior to calling with concerns regarding snow removal.**
- * **To reduce the chance of damage to your property, please mark any decorative elements that are close to the sidewalk.**
- * **Please mark all accesses for wheel chair ramps and/or parking**

It's a big job!! We need to:

Plow, de-ice, and salt as quickly and effectively as possible:

- * **150 km of streets**
- * **80 km of sidewalks**
- * **13 City Parking Lots**
- * **85 Bus Stops**
- * **550 Hydrants**
