New Yorkton City Manager Announced

Lonnie Kaal, Yorkton's Director of Finance for the past 20 years will be the new Yorkton City Manager effective August 4, Mayor Bob Maloney announced today.

Ms Kaal replaces Dave Putz who retired July 18 after nearly nine years in the position.

The City Manager position was advertised widely across Canada and a search was conducted by Waterhouse Executive Search Ltd. Six potential candidates were considered for the position.

"After careful review it was determined that Ms Kaal was the best candidate to lead the city through ongoing and future development," said Mayor Maloney. "She has experience in both the private and public sector and has shown great dedication to our city through her many years as Director of Finance. She will continue to be a great asset to the City in the future."
