“Don’t Bag it-Mulch it!” Contest Winner Announced

Garry Shury of Yorkton is the winner of the City’s first “Don’t Bag it-Mulch it!” contest. The winner was announced by Mayor Bob Maloney and Stephen Rosowsky, Chair of the City’s Environmental Committee at a news conference October 27, 2014.

Logan Stevens Construction donated the prize, a new Honda mulching mower. Residents of the city signed up to showcase how healthier lawns can be achieved by using grass clippings as natural fertilizer, rather than bagging them and sending clippings to the landfill. Shury was selected for having the best overall lawn and green lawn care practices of all 11 participants.

“I’d like to thank residents who participated in this program for helping to demonstrate how lawn clippings can be used in an environmentally friendly manner,” said Mayor Bob Maloney.

The program was initiated by the City’s Environmental Committee. Members of the committee include: Stephen Rosowsky, Tom Courville, Doug Kitsch, Mayor Bob Maloney, Keith Perkins, Councillor Chris Wyatt, Corvyn Neufeld and Stefan Bymak.
