Yorkton Parks TECH TIP

Snow Removal Tips

- Dress warm and in layers.
- Pace yourself and take breaks to prevent strain.
- Use a light shovel with a long handle.
- Push the snow, don't throw it. If you have to lift, bend at the knees.
- Use a snow blower when possible and ask for help when needed.
- Move snow away from your home's foundation. Once it melts it could get through any cracks in your foundation.
- Shovel often if you're expecting a lot of snow.
- Keep your phone on you when shoveling in case you fall and need help!
- Kitty litter works as a great source of traction on icy surfaces!

Gloria Hayden Community Centre drop in sports

Badminton | Basketball | Pickleball | Volleyball
